

Safe Return to School (Grades 6 - 12)

As with all best laid plans, this plan is subject to change in this ever-evolving pandemic environment. Since Butte County is in the “red tier”, all Gridley Unified District Schools will reopen for student attendance on October 19, 2020.

We are confident that our reopening plans and procedures will allow our students to return safely and receive the education they deserve — *IN-PERSON*. Our goal is to prevent the spread of COVID-19 and provide students with an onsite education to enhance their lives including social connections, physical activity, and mental health benefits. The American Academy of Pediatrics called for the return to in-person instruction in schools due to *“the negative effects of missing in-person educational time as children experience prolonged periods of isolation and lack of instruction.”*

GUSD will monitor local conditions, collaborate with Butte County Department of Public Health, and regularly review updated guidance from the local, county, and state agencies. This plan is based on the California Department of Public Health Guidance for Reopening K-12 Schools and CDC guidelines.

We have carefully considered the safety measures needed for all schools, staff and students alike.

GUSD Meets the California Department of Education Checklist for Reopening Schools

Cleaning & Disinfection

GUSD Maintenance and Operations takes pride in the care and cleanliness of our facilities and has been working since the March school closures on additional sanitizing and disinfecting practices.

PURPOSE: In consideration of the guidelines developed by the Centers for Disease Control (CDC) and California Public Health Department (CPHD) for school campuses, including classrooms, workspaces, outdoor spaces, and playgrounds, Sycamore, Gridley High School and Esperanza High School will implement the following procedures:

PROCEDURES:

- Staff will sanitize high-touch surfaces at scheduled times throughout the school day.
- Teachers will spray disinfectant, or use disinfectant wipes, on desks and other frequently touched spaces between classes.
- Restrooms will be locked during passing periods to avoid large crowds. Students will be permitted to use the restroom during class.
- Disinfectant wipes and spray bottles with paper towels will be provided to all classrooms and offices.
- Staff have been trained in safe and appropriate use of disinfectants.
- Busses will be cleaned between routes.
- Drinking fountain use will be suspended; students are encouraged to bring water in refillable containers. Milk and juice will also be provided with the daily grab-and-go lunch.
- HVAC filters will be changed with increased frequency.
- Additional disposable PPE will be provided as needed at each school site for student and staff use.

Transportation

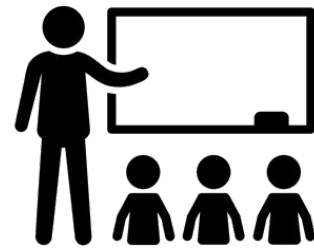

The GUSD Transportation department takes pride in the care and cleanliness of our busses and have been working since the March school closures on additional sanitizing and disinfecting practices.

PROCEDURES:

- Masks are required of all riders and bus drivers (except in the case of a medical exemption). If a student forgets his/her mask, one will be provided. Students who remove or refuse to wear a mask will lose the privilege of riding the bus.
- Hands will be sanitized upon entry on bus.
- Distancing will be enforced to the extent possible based on room and occupancy.
- Students will be seated starting at the back of the bus.
- The busses will be sanitized after each route and at the end of the day.
- Eating and drinking are prohibited on the bus at all times.

In-Person Learning

GUSD believes that classroom-based instruction and the structure of attending school on a daily basis is critical to our students' educational and social-emotional well-being.

PURPOSE: To assure that a safe distance is maintained between students, faculty and staff, GUSD will provide an in-person learning environment implementing the following distancing procedures:

PROCEDURES:

- Parents/Guardians must screen students for symptoms before coming to school every day.
- The schedule has been modified to allow time for cleaning between classes entering the space.
- Desks will be rearranged so as not to face each other. Group activities will be limited during indoor instruction. Students will have assigned seats for the potential of contact tracing.
- Students and staff will wear appropriate face coverings.
- GUSD encourages outdoor learning on campuses.
- Traffic flow in all hallways will be modified.
- Student desks will be maximally spaced in the room.
- All staff meetings, professional development training, education, and all other staff activities, will be held remotely when possible, and if in-person, appropriate physical distancing will be exercised.
- Upon entry to each class period, students will wash or sanitize their hands.
- Pick-up will occur outside in socially distanced designated areas to avoid large gatherings.
- Teachers will allow students to enter as soon as possible to the classroom. Effort will be made to minimize lines of students waiting to enter the room.
- Additional space will be made available for students to eat lunch.
- Parents/visitors will be allowed on campus by appointment only and must use a face covering consistent with state mandates.
- Schools will be limiting outside guests on all campuses to individuals or agencies providing direct services to our students.
- Classroom doors and windows will remain open to the extent possible, and unless in extreme weather conditions.
- Signage will be posted throughout the school, reminding everyone of good hygiene practices. Examples include, masking, hand washing, covering coughs and sneezes, “stop the spread of germs”, maintaining social distancing.

Distance Learning

PURPOSE: To provide an alternative learning program for families who choose to not send their child(ren) to campus for in-person learning due to COVID.

PROCEDURES:

- When “on-campus” learning is permitted by the state of California, GUSD will offer to 6th - 12th grade students a “Distance Learning” (DL) option for those families who choose to remain home due to COVID. DL will be provided through an on-line instructional program called Edgenuity or CyberHigh.
- A parent/guardian must request to be enrolled in Distance Learning (DL). The parent and student will sign a contract prior to starting.
- **Students will NOT have their regular teachers and will NOT participate in Zoom instruction. Edgenuity is a self-paced, independent work program. Instruction, assignments, and assessment are provided by videos and links within Edgenuity and taught by Edgenuity teachers. Students will be assigned a GUSD DL teacher who monitors the students’ progress in the online courses. Subject-specific GUSD tutors will be available from 3:30 - 4:30 pm to provide help via Zoom. Grades and credits are based on successful and timely work completion within Edgenuity.**
- Successful learners spend approximately 6 hours per day (a normal school day) watching videos and completing the work.
- The responsibility of the GUSD DL teacher is to track students’ progress within the Edgenuity program and stay in contact with students and families about progress.
- Students on DL are not eligible to participate in school sports, clubs, etc.
- Students may be allowed to opt back into to in-person instruction at a later point in the school year.

Face Coverings

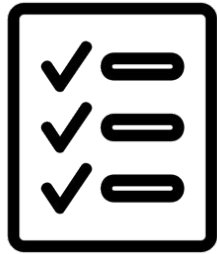

PURPOSE: To help prevent the spread and exposure to COVID-19, to establish a face covering protocol to be followed by faculty, staff, students, and third parties (both parents and vendors) on our campuses.

PROCEDURES:

- All individuals on campus are required to wear masks at all times while in classrooms and indoor spaces, including hallways and corridors near classroom entrances. Exceptions to this include physical education courses, welding or activities where a cloth face covering would pose a safety concern, and eating indoors. In outdoor spaces students will be encouraged to continue the use of masks especially in circumstances when physical distancing cannot be maintained. Students will be distanced where practicable during passing periods, understanding it is reasonable to remove the mask when outdoors and following guidelines to the extent feasible.
- Students are encouraged to bring their own masks. All campuses and busses have cloth and disposable masks available for students/staff when needed.
- Staff may use transparent face shields when necessary to conduct educational activities. Staff must use face masks when not involved in direct instruction (e.g. adult to adult interaction).
- CDPH recognizes there are some people who cannot wear a face covering for a number of different reasons. People are exempted from the requirement if they are under age 2, have a medical or mental health condition or disability that impedes them from properly wearing or handling a mask, or when it would inhibit communication with a person who is hearing impaired. This medical condition must be documented in the IEP or communicated to the school by way of a physician's order.
- According to CDPH guidelines, if a student refuses to wear a face covering, the student will be excluded from on-campus instruction, unless they are exempt, until they are willing to wear a face covering.
- Students excluded on this basis will be offered other educational opportunities through distance learning.
- Face coverings should not be worn during strenuous exercise such as PE.

Health Screening for Students and Staff

The COVID-19 virus is spreading throughout our community and will continue to do so until either a vaccine or herd immunity ends the spread altogether.

As we learn more about the virus, we now know that our youth are least affected and generally recover quickly. We also know much more about how the disease spreads and for how long a person may be contagious. With that knowledge, we are well prepared for what to do when a student or staff member exhibits symptoms or becomes positive.

PURPOSE: To provide for the screening of students and staff to identify potential exposure to COVID-19 and avoid the spread of COVID-19. GUSD will take all steps necessary to screen individuals for signs and symptoms of COVID-19 when entering our campuses. These steps are:

PROCEDURE:

- Parents will screen their children for symptoms of illness in the morning at home before leaving for school. Special attention should be paid to signs/symptoms related to COVID-19, which include: fever of 100.4 or higher, chills, cough, difficulty breathing, uncharacteristic fatigue, sore throat, muscle or body aches, loss of taste or smell, runny nose, nasal congestion, nausea or vomiting, abdominal pain, diarrhea, or headache.
- Parents are strongly encouraged to use the [CDC Coronavirus Self-Checker](#).
- If a student has been in close contact with someone who (a) is COVID positive, (b) is being tested for COVID, or (c) an ill person with symptoms of COVID, they **must stay home**. Parent will call Butte County Public Health at (530) 552-3050 or the District Nurse at (530) 682-6613 for additional guidance.
- If a student has been kept home and symptoms resolve they may return to school when they have been fever free for 24 hours without the use of fever-reducing medicine. Students also need to be free of vomiting and diarrhea for 24 hours without the use of medicine to suppress these symptoms.
- Children who exhibit any of these symptoms while at school will be sent home immediately (parent or guardian is to arrive within 30 minutes of call). Student will return to school when cleared by a physician, the county health department or School Nurse.
- Employees are responsible for self monitoring for COVID-19 symptoms.
- Students will be visually screened each time they enter their classroom.

Health Screening for Students and Staff, cont.

The COVID-19 virus is spreading throughout our community and will continue to do so until either a vaccine or herd immunity ends the spread altogether.

As we learn more about the virus, we now know that our youth are least affected and generally recover quickly. We also know much more about how the disease spreads and for how long a person may be contagious. With that knowledge, we are well prepared for what to do when a student or staff member exhibits symptoms or becomes positive.

PURPOSE: To provide for the screening of students and staff to identify potential exposure to COVID-19 and avoid the spread of COVID-19. GUSD will take all steps necessary to screen individuals for signs and symptoms of COVID-19 when entering our campuses. These steps are:

PROCEDURE:

- Students who present with fever and respiratory symptoms will be sent directly to the Health Care Office on campus where they will be evaluated by a nurse or healthcare assistant.
- Student will be held in an isolation area in the health office until a parent or guardian comes to pick them up.
- Students sent home for exhibiting symptoms or awaiting test results will be provided short-term distance learning opportunities while they are out.
- Staff who present with fever and respiratory infection symptoms will be sent home immediately. The district nurse will follow-up with a phone evaluation.
- Staff members in isolation or quarantine who are not exhibiting symptoms may continue to provide Distance Learning lessons from home.

Identification and Tracing of Contacts

The principals at each school site will communicate with our district nurse and designated BCPH liaison, regarding possible cases and exposure to COVID-19.

GUSD COVID-19 RESPONSE PLAN:

Situation #1: COVID-19 Symptoms in a student or staff member (e.g., fever, cough, loss of taste or smell, difficulty breathing, etc)

Action:

- Ensure the person is wearing a mask
- If symptoms cannot be explained by another known condition (seasonal allergies, asthma exacerbation, history of migraines, etc.), then COVID must be considered.
- In these cases, we will:
 - Send the student/staff member home
 - Refer them for COVID testing
 - Home isolation until the following three criteria are met:
 - 24 hours fever free without the use of a fever reducer, **AND**
 - 10 days have passed from the start of symptoms, **AND**
 - An improvement in respiratory symptoms
- Disinfection and cleaning of classroom and primary spaces where symptomatic person spent significant time.
- School/classroom remains open

Communication: Not needed

Situation #2: A student or staff member was in close contact with a confirmed COVID-19 case (Close contact: a person who is less than six feet from a confirmed positive case for more than 15 minutes.)

Action:

- Send home
- Quarantine for 14 days from last exposure
- Recommend testing (testing does not shorten the 14 day quarantine)
- Begin internal contact tracing and coordination with Butte County Public Health
- School/classroom remains open

Identification and Tracing of Contacts, Cont.

GUSD COVID-19 RESPONSE PLAN:

Situation #3: Confirmed positive for COVID-19 in a student or staff member

Action:

- District nurse notifies the local public health department and begins internal contact tracing.
- Infected person is interviewed for close contacts within GUSD.
- Infected individual is excluded from school for 10 days from symptom onset or test date whichever occurs first.
- Contact tracer will identify close contacts. Close contacts will quarantine at home and be excluded from school/work for 14 days from most recent contact with the COVID positive person.
 - Contact tracer will follow up intermittently with student or staff member during quarantine period.
 - If symptoms appear, testing for COVID will be recommended and timeline for return to school/work will be re-calculated based on results of testing and symptoms.
- Disinfection and cleaning of classroom and primary spaces where case spent significant time.
- Classroom and school remains open.

Communication: School staff notification of a known case

For all remaining questions regarding symptom management, please contact your local health provider.

Staff Training

PURPOSE: Limit the spread of COVID-19 by teaching staff and families the most important mitigation protocols and providing up-to-date, reliable information.

PROCEDURES:

All GUSD staff members have attended COVID-19 training that includes:

- Sanitation and disinfection practices (Keenan Safe Schools)
- Physical distancing guidelines
- Proper use of face coverings, removal, and washing
- Proper handwashing techniques
- How COVID-19 is spread
- Preventing the spread of COVID-19
- Staying home if you are sick
- The importance of not coming to work if someone they live with has been diagnosed with COVID-19
- COVID-19 specific symptom identification and when to seek medical attention
- The importance of testing and contact tracing
- The employer's plan and procedures to follow when children or adults become sick at school
- The employer's plan and procedures to protect workers from COVID-19 illness

Triggers for Switching to Distance Learning

According to the California Department of Public Health, individual school closure is recommended based on the number of cases, the percentage of the teacher/students/staff that are positive for COVID-19, and following consultation with the Local Health Officer. School closure will occur when there are multiple positive cases in multiple cohorts or at least five (5) percent infection of teachers/student/staff within a 14-day period.

The Local Health Officer may also determine school closure is warranted for other reasons, including results from public health investigation or other local epidemiological data. GUSD will work in cooperation with Butte County Public Health to monitor school and regional conditions and respond accordingly. If GUSD is closed for in-person learning, it would typically reopen after 14 days and after cleaning and disinfection, public health investigation, and consultation with the local public health department.

- In the event state or local public health officials determine that school closure will occur, GUSD will move directly into distance learning. GUSD will utilize the online platforms currently established at each school site.
- Care for children of essential service workers will continue, in compliance with the guidelines established by the Butte County Office of Public Health

Communication Plans

GUSD will adhere to the Americans with Disabilities Act and the Family Education Rights and Privacy Act to maintain confidentiality of students or staff members in its communication with stakeholders regarding dismissal decisions and the possibility of COVID-19 exposure.

- Staff and families will self-report to the school if they or their student have symptoms of COVID-19, a positive test for COVID-19, or were exposed to someone with COVID-19 within the last 14 days. This is in accordance with health information sharing regulations for COVID-19 and other applicable federal and state laws and regulations relating to privacy and confidentiality, such as the Family Educational Rights and Privacy Act (FERPA).
- If a student or staff member is identified through contact tracing to have been exposed to a positive COVID case and is awaiting testing results, they must self-quarantine whether or not they are exhibiting symptoms and should not to return for 14 days after the last known close contact with the case patient.
- GUSD will notify staff, families, and the public of school closures and any restrictions in place to limit COVID-19 exposure (e.g., limited hours of operation).
- Due to the HIPAA, in the case of a positive COVID case on a campus, **only those families of students and staff who have been identified through contact tracing will receive notification.**

Alternate Learning Options

Although we believe that classroom-based instruction is still the best option for students from an educational, social, and emotional standpoint, and that our campuses will provide a safe learning environment for our students, we are aware and prepared for students and parents who may not feel ready to physically return to school daily. We also want to ensure that we have options for students who may be medically fragile or have compromised immune systems. GUSD has options to meet the needs of these families. Students with disabilities will require an IEP decision to be placed in the appropriate educational setting.

Remote Learning

- For students and teachers that may have to self-isolate or quarantine for a period of time due to a COVID 19 exposure.
- Coursework delivered from regular teachers online via Zoom or other online platforms.
