

6th Grade English Language Arts 2nd Trimester Standards

Standard #	Student Friendly Version	Benchmark
2.2 RC	I will be able to recognize when an author compares and contrasts two things in writing.	2
2.4 RC	I will be able to create outlines, notes, and summaries after reading different stories.	2
3.1 LRA	I will be able to recognize fictional written works in its many forms (e.g., novels, essays, vignettes, and short stories).	2
3.2 LRA	I will be able to explain the different qualities of a character and how they affect the story.	2
3.3 LRA	I will be able to explain what the setting is and how it affects the outcome of the story.	2
1.1 WS	I will be able to understand different forms of writing (e.g., letters, narrative papers, poetry) and when to use them.	2

6th Grade Math 2nd Trimester Standards

Standard #	Student Friendly Version	Benchmark
1.1 Algebraic Functions	I will write and solve equations using one variable.	2
1.3 Algebraic Functions	I will be able to use order of operations to solve equations using one variable.	2
1.1 Measurement and Geometry	I will know that π is always 3.14 or $22/7$. Know the circumference and area of a circle.	2
2.1 Measurement and Geometry	I will recognize angles as vertical, adjacent, complementary, or supplementary and provide descriptions of each.	2
2.2 Measurement and Geometry	I will be able to solve the unknown measurement of one angle by knowing that the sum of all angles of a triangle equal 180 degrees.	2
2.3 Measurement and Geometry	From a written description, I will be able to draw different types of quadrilaterals and triangles.	2

6th Grade Science 2nd Trimester Standards

Standard #	Student Friendly Version	Benchmark
Plate Tectonics and Earth's Structure 1	I will know the importance of plate tectonics with Earth's surface.	2
Plate Tectonics and Earth's Structure 1a	I will know about the structure of Earth and how scientists have identified that structure.	2
Plate Tectonics and Earth's Structure 1b	I will know that the Earth is divided into layers.	2
Plate Tectonics and Earth's Structure 1c	I will know the lithospheric plates move very slowly around Earth's surface.	2
Earth's Surface 2	I will learn about the forces that shape Earth's surface.	2
Earth's Surface 2a	I will know that moving water is the most important force that shapes Earth's surface.	2

Earth's	I will learn how rivers and oceans shape the land	2
---------	---	---

Surface 2b	by eroding, or wearing away, material and carrying that material to other places.	
Earth's Surface 2c	I will understand that the sand from beaches is supplied from rivers and moved along the coast by waves.	2
Earth's Surface 2d	I will learn how natural events such as earthquakes, volcanoes, landslides, and floods shape the land.	2

6th Grade History 2nd Trimester Standards

Standard #	Student Friendly Version	Benchmark
6.1.3	I will learn how the climate changes and human modifications of the physical environment gave rise to the domestication of plants, animals, and new sources of clothing & shelter.	2
6.2.1	I will be able to locate the major river systems and discuss how they supported permanent settlements and early civilizations.	2
6.2.2	I will be able to explain the development of agricultural techniques that led to the production of food surplus and the emergence of cities as centers of culture & power.	2
6.2.3	I will understand the relationship between religion and the political order of Mesopotamia and Egypt.	2
6.2.4	I will understand the significance of Hammurabi's Code.	2
6.2.5	I will be able to describe the main features of	2

	Egyptian Art & Architecture.	
6.2.6	I will be able to explain the role of Egyptian trade in the eastern Mediterranean and Nile valley.	2
6.2.7	I will understand the significance of Queen Hatsh-epsut and Ramses the Great.	2
6.2.8	I will be able to locate the Kush Civilization and be able to describe its political, commercial, and cultural relations with Egypt.	2
6.2.9	I will be able to trace the evolution of language and its written forms.	2
